

Tutoring is rolling!

Tuesdays, Wednesday, and Thursdays
Tutoring is available from 2:10 - 4:00 in the Library. Tutoring is for any College Bound or Trio student (or any friends that you may have with you that need help).

Remember; Tutoring is REQUIRED if you have more than 5 missing assignments or any grade lower than a "D".

Essay Help

The College Success Foundation holds an Essay and personal statement workshop after school Monday, Wednesday, and Friday in room 2303. They can help edit or start your essays and are a GREAT RESOURCE!

Hearts for Kids

Initiative of Northwest Leadership Foundation

Empowering our youth to grow into their full potential for a successful future by encouragement, guidance and motivation from parents, school and community.

“Hearts for Kids is a new non-profit initiative of Northwest Leadership Foundation that **offers before, during, and after school programming in four (4) local elementary schools serving over 370 students.** We pride ourselves in being a bridge between our schools and our community. Our goal is to match the needs of our schools with the generosity of our community. **The Hearts for Kids programs provide a safe place within the schools** empowering the children to become well-rounded students through academics as well as social interactions. **The students transition immediately from their school day to our after school program where they have a nutritious snack followed by a 15 minute recess. They then move into an hour long structured activity.** These activities consist of math, reading (to include drama), science, art, choir, dance, team sports, volunteerism (Through making holiday tray cards for 300 St. Joseph’s hospital patients and visiting the residents of Harbor View senior assisted living center) as well as a variety of other skill building activities. **With the generous and nurturing support of our community volunteers, dedicated high school students and caring parents, we are able to provide our students with personalized learning opportunities that measurably enhance their academic abilities, improve their physical fitness, and increase their self-esteem.** Hearts for Kids strives to produce caring, productive community members.” - From website, emphasis added
